

Futbol, or soccer as it is called in the United States, is the most popular sport in the world. Millions of people schedule their lives and build identities around it. The World Cup tournament, played every four years, draws an audience of more than a billion people and provides a global platform for displays of athletic prowess, nationalist rhetoric, and commercial advertising. Futbol is ubiquitous in Latin America, yet few academic histories of the sport exist, and even fewer focus on its relevance to politics in the region. To fill that gap, this book uses amateur futbol clubs in Chile to understand the history of civic associations, popular culture, and politics. In *Citizens and Sportsmen*, Brenda Elsey argues that futbol clubs integrated working-class men into urban politics, connected them to parties, and served as venues of political critique. In this way, they contributed to the democratization of the public sphere. Elsey shows how club members debated ideas about class, ethnic, and gender identities, and also how their belief in the uniquely democratic nature of Chile energized state institutions even as it led members to criticize those very institutions. Furthermore, she reveals how futbol clubs created rituals, narratives, and symbols that legitimated workers' claims to political subjectivity. Her case study demonstrates that the relationship between formal and informal politics is essential to fostering civic engagement and supporting democratic practices.

Fehlgeburt - und dann... (German Edition), The Edwardian Baby for Mothers And Nurses, Business Information Systems: 19th International Conference, BIS 2016, Leipzig, Germany, July, 6-8, 2016, Proceedings (Lecture Notes in Business Information Processing), History of the Eighty-sixth Regiment-John R.
