

Patrick White within the Western Literary Tradition

Patrick White within the Western Literary Tradition is a collection of essays demonstrating the strong influence of European, British, and American cultures on Whites work. Representing the authors interest spanning over thirty-five years, the essays expose Whites evocation of dimensions other than material reality, his preoccupation with epiphanies and mythmaking, and his constant forging of a poetic style. The book also contains a series of analytical studies of the themes and characters in Whites major novels (The Aunts Story, The Tree of Man and Voss).
