

## The Misfits

Shondo, the greatest sorcerer alive, has just lost his mind, as all sorcerers eventually do. They become overwhelmed by their own power and go on a deadly, mindless rampage. When that happens, they must be taken out before too much blood is spilled. It's up to a rag-tag group of misfit warriors to destroy him before it's too late. But there's more to the rage than any of them could possibly imagine. And one of the warriors hides a terrible secret.
