

Outcast Book 1 & 2

The outcasts of society. A brigade of bandits, just eking out survival. Elin is on the run from something worse, though. Life with the bandits is almost tolerable, despite how they treat her. But when snowy isolation grips her small group of travelling companions and emotions start to get more heated, she finds an ally in their leader, Arabor. Will he be able or willing to protect her from the cruelty of others? Or will it be up to her to fight against a world that was never ready for someone like her?
