

Tackling Poverty (Headline Issues)

Poverty causes unbearable hardship to millions of people around the world. Many people do not have enough money to meet the basic needs of clean water, food, shelter, education, and health care. Tackling Poverty examines some of the problems that contribute to the poverty cycle, such as child labor, poor health, and rising debt. This book also suggests some of the ways in which people can make a difference to help break the links in the poverty chain.
