

The Lost Prince (Legends of Ansu)

Big Sword, bad Attitude! The Return of Corin an Fol! Book three in a new fantasy series with unique drawings by Tolkien artist, Roger Garland. Corin and Ariane and their friends have sprung the traps Caswallon laid. But now the chase is on to find missing prince Tarin, who, (so the mystic Zallerak informs them) has the remnants to the High Kings crown - shards that must be re-forged to make the kingdoms whole again. It's a brilliant story, and Webb's writing really is extraordinary. I love how this story and world is getting bigger and bigger, and more complex. Tarin has fled to the desert - so guess where Corin's off to? But both Caswallon's right hand man, the sinister Rael (recently thwarted in his own castle and mad for vengeance) and Corin's old comrade and now bitter foe, the hard-nosed Hagan, are both determined to get him alive. Worse, his love interest with Ariane takes a weird twist with the arrival of her dreamy beautiful cousin, Shallan of Morwella. J.W. Webb makes writing fantasy seem effortless! Corin's road takes him south on Tarin's fading trail through enemy lands to the Crystal Mountains, the rumored domain of the Smith God Croagon - the only being with skill enough to re-forged the crown. Meanwhile back in her own country, Ariane faces a new threat in the form of Caswallon's army -- now mustering on her northern borders. Outnumbered and outplayed, the queen and her stalwarts struggle to survive. Only with the crown re-forged and a new High King can the Four Kingdoms unite to overthrow the Usurper, Caswallon. That hope focuses on Corin an Fol, but things are not looking good for our boy, as deep beneath the mountains lies the biggest trap of all! 6.0 stars. Another unbelievably good book by J.W. Webb. If you like Game of Thrones or The Lord of the Rings books, then you will love this whole series!
