

Wintry Peacock can be seen as one of Lawrence's swipes against women. On the surface, it is a tale of misdirected love or even irresponsible love, the relationship between the wife and the peacock being the most strange but it is the conspiracy of the two men in the story to prevent the truth coming out about the husband's love child that is most disturbing. The innocent are punished and the guilty get away with their sins and the author goes laughing down the hill at the end of the story.
